VIT- A place to learn; A chance to grow

Certificate of Participation for Tejas Raut

This is to certify that Mr. Tejas Raut participated as a team member for "VIT University - Vellore, Vellore, India" in the following Formula Student Germany event:

Formula Student Combustion in August 2019 at the Hockenheimring.

Formula Student is an international student competition in which students have the challenge to design and build a single seat formula race car with which they must then compete against other teams from all over the world at one of the Formula Student competitions, such as Formula Student Germany. The competition is not won solely by the team with the fastest car, but rather by the team with the best overall package of design, performance, and financial and sales planning.

Formula Student challenges the team members to go the extra step in their education, by incorporating into it intensive experience in building and manufacturing, as well as considering the economic aspects of the automotive industry. Teams take on the assumption that they are a manufacturer developing a prototype to be evaluated for production. The target audience is the non-professional weekend racer. The race car must show very good driving characteristics such as acceleration, braking and handling. It should be offered at a very reasonable cost and be reliable. Additionally, the car's market value increases through other factors such as aesthetics, comfort and the use of readily available, standard purchased components.

The challenge the teams face is to compose a complete package consisting of a well-constructed race car and a sales plan that best matches these given criteria. A jury of experts from the motorsport, automotive and supplier industries judge the cars on their sales plan based on design, cost planning and sales presentation. The rest of the judging takes place on the track, where the students demonstrate in a number of performance tests, how well their self-built race car's perform in real life.

In short, Formula Student Germany forms an excellent preparation for the challenges faced by an engineer in a day-to-day working life.

TO WHOMSOEVER IT MAY CONCERN

It is our pleasure to write on behalf of Mr. **Tejas Rajendra Raut** who has worked with our organization (Borderless World Foundation) as an **Administrative Assistant** from **01/05/2018** to **10/07/2019**.

During this tenure of his work we found Tejas to be sincere, quick thinker, hardworking, dedicated volunteer with a professional attitude and well mannered. We also found that he is an active and a confident person. He is technically sound, and often comes up with new ideas. Tejas also has excellent communication skills and great command over English language. Moreover, Tejas has also helped our organization by actively volunteering in many of our NGO's peace missions.

We take this opportunity to thank him for his contribution and wish him success in his future endeavors.

Sincerely,

Borderless World Foundation
